## MV Genesis

### SPECIFICATION

Name	Genesis
Gross Tonnage	12,00
Length	11.2 m
Breadth	4.8 m
Date of Build	1991
Powerplant	2x300 BHP Iveco Turbo
Fuel Range	300 NM
Speed Over Ground	18-20 knots
Aft Deck Space	3m x 4.8m
Certification	Category 2/60 miles

Our multi-role workboat 'Genesis' is capable of high cruising speeds and is both stable and manoeuvrable. The speed at which it transits to your worksite often makes it more cost effective than conventional vessels.

Inside the wheelhouse we have an area allocated for survey and computer equipment, complete with UPS mains power supplies. The back deck has a good-sized working area and her crew have gained experience setting up and using the boat in numerous roles.

Techmarine undertake marine contracts direct or 'Genesis' can be chartered to support your various survey, diving and ROV projects.
